## Work & Experince

---

### Intern - P.P.C Department

Mercedes benz India Limited, 2024 - 2025

During my internship at Mercedes-Benz India Limited, I focused on managing notifications, ensuring smooth data flow from SAP to platforms like GSS+ and Excel servers. I meticulously maintained notification lists, monitored Plant logistics for NCPs, and created Log and Quality notifications for MBAG (Germany) and MBUSA (U.S.A.). I efficiently managed MBS purchase orders, coordinated with GSS systems for dispatches, handled EX33 consignments, and prioritized PO creation. I managed SAP POS, initiated STO orders based on part availability, and meticulously processed EX33 orders after Red Table decision. I streamlined dispatch operations with task force meetings at MBAG, ensuring smooth communication with MBUSI. This contributed notably to safety, efficiency, and process optimization.

### Quality Engineer

JCB INDIA Limited, 2025 - 2025

To lead and manage the quality function, ensuring product quality and process reliability that meet customer expectations and compliance standards. Driving continuous improvement initiatives and managing quality systems across production lines. Lead root cause analysis and corrective actions for customer complaints and internal quality issues. Manage incoming, in-process, and final quality inspection processes. Develop and implement quality control plans and procedures.

## Education
