Job Description

Apply Before:20/05/2025

Position: Python Chatbot Development Intern

Location: WFH (Remote)

Duration: 3 Months

CTC: ₹1.8 LPA

About the Role

We are looking for a motivated and enthusiastic intern to join our team to work on building a chatbot for our ETL (Extract, Transform, Load) platform. The ideal candidate should have a strong foundation in Python and be eager to work on AI-based chatbot development. Exposure to frontend (React), backend (Spring Boot), and databases will be a plus.

Responsibilities

- Design, develop, and implement a chatbot using Python.
- Integrate the chatbot with our existing ETL platform.
- Collaborate with the backend and frontend teams to ensure seamless integration.
- Provide Python development support for other automation or tool-related tasks.
- Write clean, maintainable, and well-documented code.

Required Skills

- Strong understanding of Python programming.
- Familiarity with chatbot frameworks or libraries (e.g., Rasa, ChatterBot, LangChain, etc.).
- Basic knowledge of REST APIs and JSON.

Preferred/Bonus Skills

- Experience or exposure to:
 - Frontend development (React.js)
 - Backend development (Spring Boot)
 - Working with databases (PostgreSQL, MySQL, etc.)
 - Understanding of ETL processes or data pipeline concepts.

Who You Are

- A self-starter with a passion for learning and innovation.
- Currently pursuing or recently completed a degree in Computer Science, IT, or a related field.
- Eager to work in a collaborative environment and take ownership of tasks.
