#### Role Overview:

We are looking for a fresher to release high quality software solutions. You'll be part of a cross-functional team that's responsible for the full software development life cycle, from conception to deployment. Your primary responsibilities will include working closely with the tech team and the product manager, designing testing strategies, automated and manual testing for mobile and web modules of the product. It is an individual contributor role wherein the person would work with a small but highly competitive and effective team.

#### Responsibilities:

- ☒ Create detailed, comprehensive and well-structured test plans and test cases for web and mobile applications.
- ☒ Execute test cases as per Test plans.
- ☒ Design, write & execute functional and regression tests.
- ☒ Evaluate, troubleshoot and test software.
- ☒ Ensure delivery of extremely high-quality products to end customers.
- ☒ Adopt and adhere to QA processes.
- ☒ Run non-functional tests using automated tools.

#### Requirements:

- ☒ Fresher/ internship experience as a Quality assurance engineer.
- ☒ Experience using API management tools like Postman is a plus.
- ☒ Exceptional analytical skills.
- ☒ Experience with performance and/or security testing is a plus.
- ☒ BE/BTech Computers, MSc/MCA or similar.

#### You Will Get:

- ☒ Competitive stipend and benefits
- ☒ Work closely with and be part of a truly amazing team.
- ☒ Join a fast-growing startup early, make a difference and enjoy the ride.
- ☒ Challenge yourself and take your career to the next level.
